OBJECTIVES

Highly motivated and results-driven full-stack developer with a proven track record in problem-solving and meticulous attention to detail. Proficient at seamlessly transitioning between front-end and back-end development tasks, demonstrating exceptional adaptability and a strong technological acumen. I offer a unique perspective as a self-taught programmer with extensive hands-on experience. I am dedicated to utilizing my skills and unwavering commitment to make a substantial contribution to a dynamic team, with aspirations to advance into a leadership role in the future.

SKILLS

- **Proficiency in Programming Languages & Frameworks:** Python, C#, Java, JavaScript, HTML5, CSS3, PHP, Tailwind, React.js, Next.js, Node.js, MongoDB, Express.js, Firebase.
 - **Google Cloud Services Proficiency:** Experienced in utilizing Google Cloud for VPS, firewall, and other cloud-related services.
 - **Expertise in Operating Systems:** Familiarity with Windows OS and various Linux distributions.
 - **Technical Computer Skills:** Proficient in troubleshooting both hardware and software issues.
 - **Office Software Proficiency:** Mastery of Microsoft Office and Google Workspace applications.
 - **Media Editing Skills:** Adept at video and photo editing.
 - **Analytical and Problem-Solving Abilities:** Strong problem-solving and critical thinking skills.
 - **Meticulous Attention to Detail:** Exceptional focus on accuracy and quality.
 - **Adaptability:** Quick to adapt to new technologies, tools, and environments.
 - **Collaborative Team Player:** Highly effective in team settings, contributing to collective success.
-

PROJECTS

SPACEVERSE

<https://spvr.app>
