STI College Ortigas-Cainta

Courses & Training

Analyzing and Visualizing Data with Python

DICT

Personal Projects

▪ Spaceverse

Web App

is an app for productivity. A place where you can focus on your task at hand while you travel around the world on your own desk. It's still on its early stages and is still under development.

▪ Samantha

J.A.R.V.I.S project in real-life

Engine 3 is the third iteration of the Samantha Engine. Samantha engine is the core and the framework of what an assistant interface might be like. its design is modular so it's easy to add functionality to the framework.
